

Our patented ARS® Needle Decompression Kits are designed to provide the appropriate length needle/catheter to penetrate the pleural space in 99% of patients. With its built-in failsafe characteristics, the ARS® improves the probability of success when treating casualties who present with signs and symptoms of a tension pneumothorax. Now also available with the same quality and reliability as our current 14 gauge version, the new 10 gauge ARS® provides the option of a needle/catheter that is approximately 60% larger in diameter for those customers looking for a larger gauge needle/catheter.

## 3.25 IN. NEEDLE DECOMPRESSION KITS

ARS® Needle Decompression Kit

Item# **ZZ-0298** 10 ga x 3.25 in.
